

Fanz Unlimited Network – FansLab + ViserLab Master Build Specification

(Duplicate-free, developer-ready, priority tagged)

Section 1 – Branding & Multi-Platform Structure

- Parent Brand & Sub-Platforms (BoyFanz, GirlFanz, PupFanz, etc.)
- Multi-domain with Single Sign-On (OAuth2/JWT)
- Per-brand theming & categories
- Central FUN homepage with clear Creator / Fan entry points
- AI-powered content recommendations
- Priority: P1 | Source: Core, ViserLab multi-tenant framework

Section 2 – User Roles & Panels

- Fan Panel – discovery feed, subs, PPV, tips, escrow customs, messaging, VIP perks, forum access, geo-based creator discovery (creators only visible to other creators)
- Creator Panel – onboarding/KYC, uploads (video/photo/audio/shorts), scheduling, monetization tools, analytics, collab tools, social media scheduling
- Admin Panel – global user/content/finance/moderation controls, KYC approval, compliance dashboard, payment settings, analytics, CMS
- Priority: P1 | Source: FansLab, ViserLab admin/creator/fan panels

Section 3 – Core Features

- Infinite scroll feed with sponsored ad placement every 4th post
- Stories with paywalls, polls, questions
- Geolocation Creator Map (Sniffies-style) — creator-only, live location with privacy radius, collab invites, in-map chat & booking integration
- VIP area feed (ViserTube short clips)
- Community forum (ForumLab) with niche boards, collab boards, AMAs
- Priority: Feed, Stories, Forum – P1 | Geo Map – P1 MUST-HAVE | VIP Area – P2

Section 4 – Monetization & Marketplace

- 100% Creator Revenue Model – Creator sets sub price, FUN adds platform fee on top for fans (configurable in admin)
- PPV, tips, merch, events, NFT drops, custom content requests (FUNRequest with escrow)
- Affiliate/referral network (MLMLab, AffiLab)
- Influencer campaign marketplace (CollabStar, InfuLab)
- Digital goods marketplace (CodePlus, PPDLab)
- NFT marketplace (NFTLab)
- Web3 gigs with crypto escrow (Metalance)
- Priority: 100% revenue model – P1 MUST-HAVE | Subs/PPV/Tips/FUNRequest – P1 | Marketplace/NFT/Web3 – P2

Section 5 – Streaming & Short-Form Video

- VOD library (PlayLab, ViserTube) with DRM & regional blocking
- Live streaming with polls, multi-cam, interactive toy integration
- VIP short-clip zone (TikTok-style, PPV inside VIP)
- Watch Party mode & collab live streams
- Priority: VOD + DRM – P1 | VIP short clips – P2 | Multi-cam, toys – P3

Section 6 – Events & IRL Experiences

- Event ticketing (EventLab, TheataLab) with QR entry, seat selection
- Apointer booking system for paid 1:1 sessions (virtual/in-person)
- Geo-triggered event alerts
- Priority: Virtual events – P1 | Seat selection – P2 | Geo alerts – P3

Section 7 – Wallet, Payments & VIP Cards

- XCash wallet with instant payouts
- ViserCard virtual cards for VIP perks, event access, merch discounts
- Multi-gateway integration: CCBill, Segpay, Authorize.net, NMI, 2Checkout, crypto, mobile money, bank transfers
- Admin-configurable platform fees by transaction type
- Priority: P1 | Source: PaymentHub, ViserCard, XCash

Section 8 – Marketing & Growth Tools

- Bulk email/SMS marketing (BuzzLab, TweetSMS)
- Link shortener with analytics (ShortLab)
- CPA landing pages (CpaLab) with age gates
- SEO toolkit (ViserWeb)
- Social media scheduling & reposting (SMMLab)
- Priority: Link tracking + SEO – P1 | SMM tools – P2

Section 9 – Compliance, Moderation & Security

- KYC/ID verification (VerifyMyAge)
- 2257 document vault with expiration alerts
- Coconut transcoding with DRM & watermark injection
- AI-assisted content moderation
- DMCA takedown system
- End-to-end encrypted chat
- Anti-screenshot/recording measures
- Priority: P1 | Source: VerifyMyAge, Coconut

Section 10 – Analytics & Intelligence

- Creator dashboards: revenue, engagement, audience geo, churn
- Admin dashboards: platform revenue by source, top content, referral tracking, fraud detection
- Compliance reports: doc status, geo-restrictions, DMCA logs
- AI-based churn prediction & earnings forecasting
- Priority: Core analytics – P1 | Predictive – P3

Section 11 – Never-Before-Seen Innovations

- FUNRequest – custom content with escrow, counter-offers, admin approval
- FUNMap – creator-only networking map with in-map chat & collab invites
- Clip Roulette – random VIP clip access via virtual card
- Geo Battles – city-vs-city creator contests
- Creator Health Monitor – burnout risk alerts
- Content Collision Check – prevent duplicate uploads undercutting creators
- Priority: FUNRequest & FUNMap – P1 MUST-HAVE | Others – P2–P3
